5G’S IMPACT ON TELECOM INFRASTRUCTURE 2019
Market & Technology Report - June 2019

Network evolution and 5G implementation are driving massive structural changes.

REPORT KEY FEATURES
• Infrastructure market split by antenna system technology, by region
• Volumes of infrastructure RF line products, characterized by power level and frequency
• Key infrastructure players positioning
• Regional market trends for 5G implementation
• Technological comprehensive description of 4G/5G networks
• Explanation of 5G market trends and market interests

5G – AN ATTEMPT TO ENLARGE A STEADY, CONSOLIDATED MARKET

The telecom infrastructure market has not moved much in the past decade in terms of the value of operators’ investments. Customer pricing also keeps decreasing, and building new infrastructure keeps showing smaller and smaller returns on investments for telecom operators. In this context, an attempt to create new markets and enlarge operators’ reach to customers beyond mobile phones created 5G. By modifying the network to allow for ultra-fast, ultra-reliable and ultra-flexible communications, 5G’s aim is to expand to new opportunities, such as enterprise-owned networks, industrial automation or road safety. Nevertheless this is a bet on the future, and actual infrastructure market growth is not expected in the foreseeable future at site level. Yole Développement (Yole) expects the global market to remain steady and oscillate between 1.7 and 2.0 million macro site antenna systems shipped a year between 2018 and 2025. On the other hand, a new type of smaller infrastructure should still see notable growth. That infrastructure is referred to as ‘small cells’, and should reach shipment levels in the eight hundred thousands of units by 2025.

A CONSOLIDATED MARKET, RECENTLY DESTABILIZED

In the infrastructure market, consolidation has already occurred and it is dominated by only a few players, namely Huawei, Ericsson, Nokia, ZTE and Samsung. But even though no new entrant is expected, some major changes are happening. They are due to recent geopolitical events, such as Huawei’s ban in the US, and the low interest in 5G in developing countries. The players will remain the same, but their market share will evolve. Yole’s analysts expect Samsung to sharply increase its global presence thanks to both its expertise in small cell developments and the ban on Chinese technology in developed countries. Indeed, one of the outcomes is that operators will need Samsung to increase its presence, as dealing with only two infrastructure suppliers, namely Nokia and Ericsson, represents a sourcing risk.

The global landscape at network level will not move much before 2025. But it will definitely change in terms of technology and antenna systems, thus completely restructing the radio frequency (RF) component industry. On one hand frequencies are going from less than 3 GHz to up to 6 GHz for macro deployments, while small cells exploit millimetre-wavelengths (mm-waves). Meanwhile RF line power levels in front-ends will decrease from a few hundred watts to down to a few watts in macro site antenna systems, thanks to massive MIMO and active antenna
RF FRONT END CHARACTERISTICS ARE DRIVEN BY ANTENNA SYSTEM TECHNOLOGY EVOLUTION

The most common antenna system today is the combination of a remote radio head (RRH) with a passive antenna array for signal transmission. This combination uses high power components, with a few RF lines per system handling up to a few hundred watts of RF power each. These devices are expected to remain the main approach for coverage deployments in developing countries and China, or in rural areas. On the other hand, in zones where network improvement is sought instead of higher coverage, the trend is for new generations of antenna systems that include beamforming and multiple streams. These new antenna technologies are active antennas, meaning that each and every single antenna element will have a dedicated low power RF front-end feeding it. This is a drastic change of approach as it means that instead of a few RF feeds of about a hundred watts, the system will see up to 64 feeds of a few watts each. This changes the component types, their substrates, their form factors, their key characteristics, and so on. Small cells and mm waves will also bring innovations, with the need for components working on frequency bands in the tens of GHz, and at power levels down to a hundred mWs. This is creating a completely new market, and new opportunities for new entrants.

Infrastructure power amplifiers technology landscape in 2019

(Yole Développement, June 2019)
REPORT OBJECTIVES

- Provide an overview of the 4G/5G telecom infrastructure market
- Analyze geographical trends regarding 5G adoption and antenna technology/frequency band choices
- Outline market evolution from macro antenna systems to individual RF lines, split in frequency and power level
- Offer a comprehensive approach of the technologies encompassing 5G, from modulation to signal beamforming
- Explain the difference between antenna systems and their role in 5G component characteristic definitions

COMPANIES CITED IN THE REPORT (non exhaustive list)

Sprint, Verizon, Huawei, Ericsson, Nokia, ZTE, Samsung, NTT DOCOMO, GSMA, NEC, Fujitsu, Qorvo, Skyworks, Sumitomo Electric, Infineon, NXP, RFHIC, MACOM, CREE, Wolfspeed, AMPELEON, Broadcom, AT&T, Spire, KT Telecom, LG U+, SK, Telecom, Analog, Devices, Qualcomm, Commscope, IDT, Keysight Technologies, Linköping University, Telefonica, SigFox, Murata, LG, Intel, and more.

ABOUT YOLE DEVELOPPEMENT

Founded in 1998, Yole Développement has grown to become a group of companies providing marketing, technology and strategy consulting, media and corporate finance services, reverse engineering and reverse costing services and well as IP and patent analysis. With a strong focus on emerging applications using silicon and/or micro manufacturing, the Yole group of companies has expanded to include more than 80 collaborators worldwide covering MEMS and Image Sensors, Compound Semiconductors, RF Electronics, Solid-State Lighting, Displays, Software, Optoelectronics, Microfluidics & Medical, Advanced Packaging, Manufacturing, Nanomaterials, Power Electronics and Batteries & Energy Management.

The “More than Moore” market research, technology and strategy consulting company Yole Développement, along with its partners System Plus Consulting, PISEO and KnowMade, support industrial companies, investors and R&D organizations worldwide to help them understand markets and follow technology trends to grow their business.

CONSULTING AND ANALYSIS

• Market data & research, marketing analysis
• Technology analysis
• Strategy consulting
• Reverse engineering & costing
• Patent analysis
• Design and characterization of innovative optical systems
• Financial services (due diligence, M&A with our partner)

More information on www.yole.fr

MEDIA & EVENTS

• i-Micronews.com website & related @Micronews e-newsletter
• Communication & webcast services
• Events: TechDays, forums…

More information on www.i-Micronews.com

REPORTS

• Market & technology reports
• Patent investigation and patent infringement risk analysis
• Structure, process and cost analysis
• Cost simulation tool

CONTACTS

For more information about:

• Consulting & Financial Services: Jean-Christophe Eloy (eloy@yole.fr)
• Reports: David Jourdan (jourdan@yole.fr) Yole Group of Companies
• Press Relations & Corporate Communication: Sandrine Leroy (leroy@yole.fr)
1. SCOPE

1.1 The Contracting Parties undertake to observe the following general conditions when agreed by the Buyer and the Seller, except for ANY ADDITIONAL, DIFFERENT, OR CONFLICTING TERMS AND CONDITIONS IN ANY OTHER DOCUMENTS ISSUED BY THE SELLER, OR ANY OF ITS SUBSIDIARIES, OR JOINT-VENTURES HEREWITH OBJECTED TO BY THE SELLER, SHALL BE WHOLLY INAPPLICABLE TO ANY SALE MADE HEREUNDER AND SHALL NOT BE BINDING IN ANY WAY ON THE SELLER.

1.2 This agreement becomes valid and enforceable between the Seller and the Buyer on one hand and the Buyer on the other hand.

1.3 Shares information from the Seller. In such case only, the Buyer shall be entitled to receive the latest version of these Terms and Conditions in order to obtain any new contradictory information would require for the analyst extra time to compute or compare the data in order to enable the Seller to deliver a high quality Products.

2. MAILING OF THE PRODUCTS

2.1 Products are sent by email to the Buyer:

• Within a few days from the order for Products already released and made available

• Within a specific time for orders placed or modified within the same week or month, as per the order.

2.2 The Seller shall by no means be responsible for any delay in receiving the delivery or making the products available, nor in the event of access to new contradictory information would require for the analyst extra time to compute or compare the data in order to enable the Seller to deliver a high quality Products.

3. LICENSING

For the 3 reports, different licenses are proposed. The buyer has to choose one license type:

• Single user license: one person at the company can use the report. Sharing is strictly forbidden.

• Multi-user license can be acquired for an unlimited number of users within the company, but only in the country of the primary user. Subsidiaries and Joint-Ventures are excluded.

• Corporate license to be used by an unlimited number of users within the company, but only in the country of the primary user. Subsidiaries are included, while Joint-Ventures are excluded.

• Monitor: Monitors are delivered and delivered in Excel. An additional PDF can also join it. Q&A with an Analyst is possible for “Monitor”:

• Single user license: one person at the company can use the report. Subsidiaries are included, while Joint-Ventures are excluded.

• Corporate license: the report can be used by an unlimited number of users within the company, but only in the country of the primary user. Subsidiaries and Joint-Ventures are excluded.

4. LIABILITIES

4.1 The Seller or any other individual or legal person acting on its behalf, being a user buying the Products for its business activities, shall be solely responsible for choosing the Products and for the use and understanding of the documents he makes of the terms it purchases, of the results he obtains, and of the advice and acts it deduces from the use of the Product.

4.2 The Seller shall only be liable for (i) direct and (ii) foreseeable pecuniary loss, caused by the Products or arising from a material breach of this agreement.

4.3 In no event shall the Seller be liable for:

a) Damages of any kind, including without limitation, incidental or consequential damages (including, but not limited to, damages for loss of profits, business interruption, loss of business information or data) arising out of the use of or inability to use the Seller’s website or the Products, or any information provided on the website;

b) Any claim attributable to errors, omissions or other inaccuracies in the Product or interpretations thereof.

c) All the information contained in the Product has been obtained from sources believed to be reliable. The Seller does not warrant the product, accuracy, completeness or reliability of such information, which cannot be guaranteed to be free from errors.

4.4 All the Products that the Seller sells may, upon prior notice and after consultation of the Buyer, be modified by or substituted with similar Products meeting the needs of the Buyer. This modification will not lead to the liability of the Seller, provided that the Seller ensures the substituted Product is similar to the Product initially ordered.

4.5 In the case where, after inspection, it is acknowledged that the Product does not correspond to the requirements of the Buyer, the Seller undertakes to replace the defective products as far as the supplies allow and without indemnities or compensation of any kind for labour costs, delays, loss caused to the Buyer shall be limited to the purchase price of the Product up to the maximum of twenty months starting from the delivery date. Any replacement is excluded for any event as set out in article 4.4.4 above

4.6 If the deadlines that the Seller is asked to state for the mailing of the Products are given for information only and are not guaranteed. If such deadlines are not met, it shall not lead to any damages for the Seller, nor shall it entitle the Buyer to a discount of its first payment due to the exclusion of any further damages.

4.7 The Seller does not make any warranties, express or implied, including, without limitation, those of sale ability and fitness for a particular purpose, the information from the Seller shall take reasonable steps to screen Products for infection of viruses, worms, Trojan horses or other codes containing contaminating or destructive elements before making the Products available, the Seller cannot guarantee that any Product will be free from infection.

5. FORCE MAJEURE

The Seller shall not be liable for any delay in performance directly or indirectly caused by or resulting from acts of nature, fire, flood, accident, riot, war, government intervention, embargoes, strikes, labour difficulties, equipment failure, late deliveries by suppliers or other difficulties which are beyond its control and are beyond the control of the Seller.

6. PROTECTION OF THE SELLER’S IPR

6.1 All the IPR attached to the Products are and remain the property of the Seller and are protected under French and international laws and conventions.

6.2 The Buyer agreed not to disclose, copy, reproduce, redistribute or publish the Product, or any part of it to any other party other than employees of its company (only in the country of the Seller). The Buyer shall have the right to use the Products solely for its own internal information purposes. In particular, the Buyer shall therefore not use the Product for purposes such as:

- Intranet storage management systems;
- Recordings and re-transmit over any network (including any local area network);
- Use in any timesharing, service bureau, bulletin board or similar arrangement or public display;
- Posting any Product to any other online service (including bulletin boards or the Internet);
- Licensing, leasing, selling, offering for sale or assigning the Product.

6.3 If the Buyer would like to use data coming from the Products for proprietary purposes, press articles or other communications, the Buyer must send the following request to Yole Développement’s Terms and Conditions of Sale”.

6.4 The Buyer shall be solely responsible towards the Seller of all infringements of this obligation, whether this infringement comes from any employee or sub-contractor of the Buyer, of any of the Products and shall personally care of any related proceedings, and the Buyer shall bear related financial consequences in their entirety.

6.5 The Buyer shall define its own contact point for the needs of the contract. This person will be the recipient of each new report. This person shall be responsible for respect of the copyrights and will guaranty that the Products are not distributed outside of the context of Bundle and Annual Subscriptions, the contact person shall decide who within the Buyer, shall be entitled to receive the protected link that will allow the Buyer to access the report.

6.6 Please note that whether in Bundles or Annual Subscription, all unsolicited reports will be cancelled and lost after the 12 month period of subscription.

7. TERMINATION

7.1 If the Buyer cancels the order in whole or in part or postpones the date of mailing, the Buyer shall indemnify the Seller for the entire costs that have been incurred as at the date of notification by the Buyer of such delay or cancellation. This may also apply for any other direct or indirect consequential loss that may be borne by the Seller, following this request.

7.2 In the event of breach by one Party under these conditions or the order, the non-breaching Party may send a notification to the other to recall delivery or order cancellation, which, after a period of thirty (30) days without solving the problem, the non-breaching Party shall be entitled to terminate all the pending orders, without being liable for any compensation.

8. MISCELLANEOUS

All the provisions of these Terms and Conditions are for the benefit of the Seller itself, but also for its licensees, employees and agents. Each of them is entitled to assert and enforce those provisions in its own name.

Any notices under these Terms and Conditions shall be given in writing. They shall be effective upon receipt by the other Party. The Seller may, from time to time, update these Terms and Conditions, which will be deemed to have accepted the latest version of these terms and conditions, provided they have been communicated to him in due time.

9. GOVERNING LAW AND JURISDICTION

9.1 Any dispute arising out of or linked to these Terms and Conditions or to any question relating to their interpretation or execution shall be subject to the French Commercial Courts of Lyon, which shall have exclusive jurisdiction upon such issues.

9.2 French law shall govern the relation between the Buyer and the Seller, in accordance with these Terms and Conditions.

Definitions: “Acceptance”: Action by which the Buyer accepts the terms and conditions of sale in its entirety. It is done by signing the purchase order which mentions “I hereby accept Yole Développement’s Terms and Conditions of Sale”.

“Buyer”: Any business user (i.e. any person acting in the course of its business activities, for its business needs) entering into the following general conditions to the exclusion of consumers acting in their personal interests.

“Contracting Parties” or “Parties”: The Seller on one hand and the Buyer on the other hand.

“Intellectual Property Rights” (“IPR”): means any rights held by the Seller in its Products, including any patents, trademarks, registered designs, know how, trade secrets, commercial secrets and know-how, technical information, company or trading names and any other intellectual property rights or similar in any part of the world, notwithstanding the fact that they have been registered or not, and including any pending registration of one of the above mentioned rights.

“Products”: Depending on the purchase order, reports or monitors on MEMS, Imaging, SSL, Advanced Packaging, MedTech, Power Electronics and more, can be bought either on a unit basis or as a bundled offer (i.e. subscription for a period of 12 calendar months).

“Report”: Reports are established in PowerPoint and delivered in a PDF format. Reports can be distributed by email/password. If the Product’s electronic delivery format is not PDF, the email/password will be provided along with the report via email/password. If the Product’s electronic delivery format is not PDF, the email/password will be provided along with the report via email/password.
